The Trex HD Monitoring system is a powerful ambulatory EEG / PSG system that assists you in providing enhanced patient care. Along with Natus NeuroWorks, the Trex HD allows physicians to perform home video EEG studies while remotely viewing live data from the clinic.

#### The Trex HD Monitoring System provides:

- Live monitoring and analysis
  - Remote monitoring helps reduce costs
  - Patient mobility is enhanced with wireless streaming
- Remote access to studies
  - Citrix® Ready software for remote connectivity
  - Test results are delivered using a secure service
- Natus Service & Support
  - Unparalleled clinical experience supported by our extensive and knowledgeable IT and service organization
  - 24/7 technical support
